FRIDAY MORNING, AUG. 6, 1852. The Wilson property advertised on this page of this paper, may be divided into two farms...

Business Notices.

The Wilson property advertised on this page of this paper, may be divided into two farms. [Lancaster 1779 and Reading Journal insert the advt. with some additions, amount of 25 each, and send bills to Chronicle.]

The Editor of the Chronicle is not responsible in any way for the space which the Publisher has appropriated to the use of the Whig party during this campaign.

The opinion of the Supreme Court in the Susq. Railroad case, is published in a Philad. paper, and will be copied in the Chronicle next week, together with a recent Judicial decision in Ohio where an attempt was made to repudiate a County Railroad Subscription.

We have not been honored with a copy of any of the Anti-Railroad Resolutions passed in this county. Next week, we shall copy those of Saturday, which we expect to find in the forthcoming Times.

Great Rail Road Meeting.

The largest meeting ever witnessed in New Berlin, assembled in that place on Saturday last, the 31st ult., to take action upon the all absorbing topic of the day, the Railroad question. The Court House being altogether too small for the purpose, the meeting convened in the front of the public buildings. John Swineford Esq., nominated R. B. Barber Esq., for President and took the Ayes but the Nays. He then read a list of Vice Presidents and Secretaries. The Nays were again denominated by the immense crowd, and when reluctantly put, the whole organization was voted down by an overwhelming voice of dissent. C. H. Shriner attempted to offer a resolution, and Mr. Barber proceeded to state the object of the meeting, but his right to do so not being recognized, his voice was drowned by a prolonged shout of disapprobation that compelled him to desist. Mr. Casey then nominated Hon. NER MIDDLESWARTH for President, which motion was carried by acclamation. He was helped into the wagon, and proceeded to state the object of the meeting, when the handful of Repudiators precipitately retreated to the steps of the Jail, to take another stand; but not being able to draw more than fifty or sixty of their deluded followers after them, a delegation of the most chivalric laid hold of the wagon, and carried President Middleswarth and his fellow passengers off at full speed, around the corner towards Penn's creek; but the threatened cold bath was abandoned, and the "locomotive" pulled up in Old Market Street, near Herr's Hotel, and there landed its kidnaped cargo. In the mean time the great bulk of the audience good humoredly kept its place, and in a few minutes the President returned, and mounting another wagon, proceeded to deliver a manly, logical and apposite address in behalf of the Susquehanna Railroad and in reference to the County Subscription, which was listened to with close attention, and loudly cheered. He was followed at length by Messrs. Casey, Hickok, S. C. Wilt, and G. F. Miller, and also by Judge Ellmaker of Lycoming County, in explanation of the character and prospects of the road, and the true nature and extent of the County's liabilities, after which the following resolutions were offered by Mr. John Seebold, and unanimously adopted. Resolved, That the head that dictated Repudiation to the citizens of Union county deserves derision and contempt commensurate with the dishonorable and dishonest subterfuge; and that that heart must be corrupt that attempts to fix so foul a stigma upon our character; and neither that head or heart is worthy of a place amongst honest men. Resolved, That this meeting sustains the Commissioners of Union County in the subscription of \$200,000 to the Susquehanna Rail Road. The proceedings were ordered to be published, and the meeting then adjourned with three enthusiastic cheers for the Rail Road, and a vote of thanks to the President for his honorable and independent course. While Mr. Casey was speaking, Jack Cummings and other whippers in the Nullification party, made considerable disturbance by their vociferous efforts to coax and drive their adherents off to the other meeting.

During Mr. Miller's remarks the repudiation procession made its appearance, headed by a band wagon, with the Whiskey

Inspector elevated to the most conspicuous seat, while near him stood an elderly lawyer, of portly proportions, and complacent countenance, who leaned gracefully against Charley's seat, and seemed to think it glory enough for one day to be permitted to exhibit himself as a humble subaltern of the crazy Jupiter Tonans of the hour. The wagon was drawn—as in Fanny Essler's case at Baltimore—by a party of men and boys; which elicited the remark from a wag that "he had heard tell of such things afore, and he didn't know but long-cared animals was just as good for such work as horses."

With the exception of the disturbances created by the discomfited outsiders, the meeting was one of the most orderly and respectable ever held in this county.

The Repudiators Nullified. After their prolonged flourish of trumpets, few demonstrations have met a more signal and effective discomfiture than that which broke the force of repudiation on Saturday last, and, for all practical purposes, ended the contest at the threshold of its organized development. It first neutralized itself by the discordant and irreconcilable materials, it had gathered together; the thoughtless chiefs being checked at the start by their own allies, and the "blind leaders of the blind" all fell into the ditch together. This alone was enough to work their overthrow, without the influence of the large mass of intelligent and substantial tax payers from all parts of the county—drawn thither by a regard for their own rights and reputation, and that of the county—and whose simple presence alarmed and disconcerted the conspirators. It is objected that they had no right on the ground, and the fastidious fanaticism of the "call" is quoted as an argument. But that quibble won't take, for the cry was, "Come one, come all!" and they professed to speak for the entire county, in their attempts to fasten a stigma upon our character. Besides this the abominable falsehoods and libels published at the eleventh hour, for effect, invited examination, and made it imperative duty of the friends of the road to meet the traducers face to face. But the cowards had neither the moral courage nor moral honesty to meet the issues that had forced upon public attention. Free discussion was repeatedly offered. Large numbers of their own men were anxious to have a public meeting, and hear the truth of the matter from alternate speakers on both sides; and when they found this fair and reasonable proposition rejected, quit the repudiators in disgust. It is morally certain that if both sides could have been fully and fairly heard, four fifths of the entire throng at New Berlin, would have gone home satisfied on the subject, and content to let well enough alone.

We are told the Whiskey Inspector, in his speech, gave the citizens of Lewisburg the benefit of his choicest bilgewater; characterizing them in gross, as "bullies and blackguards"—a courteous and flattering compliment that may return, some day, to "plague the inventor!" We also understand that he poured out the vials of his wrath—half-ounce vials, we believe—upon our devoted head. This was to be expected; for an independent press is a sad foe to the intrigues and calumny of brawling demagogues.

Among the fanatics were some four or five Democratic young gentlemen of respectable standing and influence, who, in an unguarded moment no doubt, were so far thrown off their balance as to advocate a total demolition of the law, the commissioners, the administration and the Democratic party, forthwith, and without benefit of clergy. But there is reason to hope that the refreshing waters of the White Spring will cool their throbbing brains, and brace up their shattered nerves; and a sober second thought put their hearts in the right place again.

A New Feature.

We have already advised our readers of the connection between Daniel L. Miller, Jr., and his cats paws in this county; confirmed more recently by the fact that the President of the Susquehanna Railroad and in reference to the County Subscription, which was listened to with close attention, and loudly cheered. He was followed at length by Messrs. Casey, Hickok, S. C. Wilt, and G. F. Miller, and also by Judge Ellmaker of Lycoming County, in explanation of the character and prospects of the road, and the true nature and extent of the County's liabilities, after which the following resolutions were offered by Mr. John Seebold, and unanimously adopted.

Resolved, That the head that dictated Repudiation to the citizens of Union county deserves derision and contempt commensurate with the dishonorable and dishonest subterfuge; and that that heart must be corrupt that attempts to fix so foul a stigma upon our character; and neither that head or heart is worthy of a place amongst honest men. Resolved, That this meeting sustains the Commissioners of Union County in the subscription of \$200,000 to the Susquehanna Rail Road.

The proceedings were ordered to be published, and the meeting then adjourned with three enthusiastic cheers for the Rail Road, and a vote of thanks to the President for his honorable and independent course. While Mr. Casey was speaking, Jack Cummings and other whippers in the Nullification party, made considerable disturbance by their vociferous efforts to coax and drive their adherents off to the other meeting.

Parties and private families supplied at the shortest notice and on liberal terms. A call from his friends and the public generally is respectfully solicited. Lewisburg, July 9, 1852

HICKOK'S PATENT CIDER MILL.

In all former times it was supposed that a large quantity of cider could be made only by using a ponderous machine, that slowly crushed the apples without grinding them fine. They were then made into a massive chace in straw, and a most severe and long pressure was required to extract a portion of the cider, a considerable portion being absorbed by the straw and the mass of pomace, and to obtain this unsatisfactory result the farmer had to take all his hands and perhaps his six horse teams and devote a whole day that could have been more profitably employed, to make from six to twelve barrels of cider. To obviate the difficulty the farmer has heretofore labored under.

This Machine

has been invented, and the statement of a few facts may prove that it is not only the Best Machine of the kind in existence, but that it is the most profitable that a man can have on his farm. The apples are by this machine grated up into a fine pulp, so that it requires but a comparatively light pressure, and that but a minute or two, to extract from the tub and the complete manner in which it is ground, a pressure of three to five tons—which can be easily obtained—will produce a more favorable result than any hundred tons pressure on the ordinary cider press, even if the apple were ground as finely as on the improved Mill and if the apples were merely crushed as on the Nut machine, it would require a pressure of two hundred tons to produce the result accomplished by this Patent Mill. The following are added as decided advantages of this machine: First—It makes more Cider than any other press, with a given quantity of apples, and a given time, and with much less labor and expense. Second—It makes more Cider than any other machine.

Third—You can make your Cider as you want it, and when you want it—and in quantities from one gallon to six or seven barrels. Fourth—With it you can press your Currants, Cherries, Berries, Cheese, Butter, Lard and Tallow. Fifth—With it you can save ONE FOURTH of your time in making Apple Butter, as all those have FREE and SWEET Cider. Sixth—With it you can grind or chop your Apples, Potatoes, Turnips, Beets, Carrots, or Pumpkins, for Cattle. Seventh—By its use you can at all times have FRESH and SWEET Cider.

The price of the Cider Mill, with right to use the same on any one farm, is \$35. Price of the Root Cutting Cylinder, \$5. The size of this Machine is about 3 by 4 feet, and weighs about 200 pounds. It may readily be taken to the cellar, door-yard, kitchen, barn-floor, or orchard, as may be most convenient.

For State, County or Township rights, or for Grants to make machines in certain territory for stated period, address (post paid) W. O. HICKOK, Harrisburg, Pa.

Persons in Union and the upper part of Northumberland counties, and in Penns and Berks valleys, Center county, can procure the above Machines on application to H. C. HICKOK. Lewisburg, July 9, 1852
